

## Mike Clay's 2019 NFL Projection Guide

Updated: 9/7/2019

Understanding the graphics:

\*The numbers shown are projections for the 2019 NFL regular season (Weeks 1-17).

\*Some columns may not seem to be adding up correctly, but this is simply a product of rounding. The totals you see are correct.

\*Looking for sortable projections by position or category? Check out the projections tab inside the ESPN Fantasy game.

\*'Team stat rankings' is where each team is projected to finish in the category that is shown.

\*'Unit Grades' is not related to fantasy football and is an objective ranking of each team at 10 key positions. The overall grades are weighted based on positional importance. The scale is 4.0 (best) to 0.1 (worst).

\*'Strength of Schedule Ranking' is based on 2019 rosters (not 2018 team record). '1' is easiest and '32' hardest.
